Southers Pacific. Nearly all of them were urgent bidders, and the stock was taken as offered from 69½ to 70½. Union Pacific followed this movement, and crossed 134. Reading made an advance of 2½ to 124½.

American Cotton Oil rose 2 points to 32½, and large numbers of other issues made gains ranging from 1 to 2 points. There was good buying of Chicago Union Tractions. Pennsylvania was bought on a large scale by Hooley, Learnard & Co., and the same firm were fairly large buyers of New York Central, London bought about 15,000 shares in the early trading.

Government bonds were unchanged. Government bonds were unchanged, others steady.

NEW YORK, Oct. 2.—The stock market has kept a strong tone today. Chesapeake and Ohio was within 1 percent of its high record.

The advances have been in a few stocks at a time, with no general swell. Heaviest trading was in Steel common and Union Pacific.

The most important news developments this morning were the announcement that £700,000 of South African gold had been purchased in London for shipment to this city, and the offer of \$10,000,000 bank money on the floor of the exchange at 6 percent.

Large Borrowing Demand.

There was a very large borrowing demand for stocks in the loan crowd, St. Paul lending at 3 per cent, which in a 6 per cent market, is of the utmost significance. The borrowing of St. Paul was on a large scale and came from many scattering sources.

Large buying orders were made in many of the most important active stocks at the opening, and all through the first hour. Cast iron pipes were strong, common advancing to \$2%, against 31% at close Saturday, and the preferred advanced to \$3.

ATTACK ON COTTON MARKET NEW YORK, Oct. 2.-The local cot ton market this morning opened steady and a trifle better than expected on the cables, but there were not enough supporting orders to sustain the list. First

porting orders to sustain the list. First prices were 3 points higher to 1 point lower, but soon after the call the bears made an attack, causing prices to fall to a level 3 to 5 points below the final quotations of Saturday.

Some attributed the decline to expectations that the report of the Census Bureau would show a large amount of cotton ginned to September 25. The report of New Orleans Times-Democrating also have had some effect as it noted an improvement in the condition of the crop in Texas for the month, although reporting a small general deterioration over the entire belt.

On Saturday—a poor day, it must be admitted upon which to found a comparison—call money, on merely nominal transactions, receded to 5 per cent, thereby suggesting that the crisis was passed and that Friday's sharp break in foreign exchange marked the turning of the monetary tide. Should this supposition be fulfilled today through a liberal offering of cotton bills, it may be assumed that the worst is over, and that 7 per cent call loans will not be a disturbing factor in the markets of the week.

and that 7 per cent call leans will not be a disturbing factor in the markets of the week.

Leaving the money question out of consideration, the prevailing situation is so remarkably satisfactory in every department of industry and commerce that the larger commission houses without a single exception are predicting a month of exceptional market activity. Granted that the money rate be restored to its normal status of, say. 3½ per cent, or thereabouts, it is difficult to conceive of an argument upon the bear side that would be likely to prove effective in depressing values seriously at a season characterized by general prosperity throughout the country.

# THIRTY-NINE LIVES

Disastrous Wreck of Coast Guard Cutter Leyte-Five Officers Drowned.

The governor general of the Philip pines notified the War Department this morning that five officers, one postal clerk, six passengers and twenty-seven of the crew of the coast guard cutter Leyte, were lost by the wrecking of that ship off Samar, in the destructive storm of September 26, full details of which

are just being received.

The officers lost were William N. Fish er, Frederick Heliberg, E. M. C. J. Olsson, George Gardner, and one Frederick Hellberg, E. M. Bentel, postal clerk

The passengers lost were James M. Dean and George B. Hart. Also four others, names not known.

# M'LEAN MAY CONTROL THE WASHINGTON POST

John R. McLean, president of the Washington Gas Light Company, has bought OTHER DEATHS. a large interest, probably a controlling interest, in the Washington Post.

When the question was put to Mr. Mc-Lean today he neither denied nor affirmed the story. Said he:
"So they're saying that about me, are

they? That's about the only thing they haven't said except that I've sold the dear old Cincinnati Enquirer. At this point a friend of Mr. McLean's

standing by said, laughingly:
An, that s the best newspaper in the country anyway. I read stuff in that paper out there one morning, and come here and find it in the Washington pa-

pers the next morning."
"So, you see," said Mr. McLean, rather a halfway newspaper man after No. I don't care to say anthing about the Washington Post matter at

all."

The sons of Berlah Wilkins, who now control the Post, are at present out of the city. The report of the large purchase by Mr. McLean, however, seems to be well founded, and it is generally credited along Newspaper Row.

Mr. McLean is well known in Washington society, and has been in this city many years. He is well known also in Ohio politics. His city home here and his country place in the District are famous for their beauty and luxury.
